

# PIPE & HOSE RAMP

The RubberForm Pipe and Hose Ramp helps save time and money as an efficient alternative to laying down temporary asphalt or gravel. They help eliminate unnecessary costs associated with one-use ramp materials, prolonged setup labor, and messy cleanups.

Made from post-industrial extruded EPDM rubber, RubberForm's ramps are a durable, long-lasting solution that can be easily placed, removed, and relocated as needed. They are perfect for temporary or permanent use for projects that require a need for the transition of load-bearing traffic over pipes, cables, hoses, or electric conduit lines.

Our Pipe and Hose Ramps are ideal for construction, waterline projects, public utilities and any other project that needs to prevent vehicular traffic from interfering with pipe, hose, or cable lines.

## Key Features

- Available in multiple ramp heights
- High load-bearing capacity
- Flexible – conforms to any asphalt or concrete surface
- Indoor or outdoor use
- Easy to transport & install with built-in hand grips
- Made in the USA with 100% post-industrial EPDM rubber

**Made in the USA**

**100% Recycled Material**

**Increase LEED Score**

# PIPE & HOSE RAMP SPECIFICATIONS

## Models

### RF-PR1-10

- 30 lbs
- 1.5"H x 8"W x 120"L

### RF-PR2-3

- 32 lbs
- 3"H x 12"W x 36"L

### RF-PR4S-3

- 78 lbs
- 4"H x 28"W x 36"L

## Specifications

### RF-PR1-10

- 1" Pipe & Hose Ramp
- Holds pipe or hose diameter up to 1.5"

### RF-PR2-3

- 2" Pipe & Hose Ramp
- Holds pipe or hose diameter up to 2-3/8"

### RF-PR4S-3

- 4" Pipe & Hose Ramp
- 3-piece set – 2 ramps & 1 inter-connector
- Holds pipe or hose diameter up to 4.5"
