

SPILL CONTAINMENT BERMS

RubberForm's Spill Containment Berms can be used as a structure to mechanically isolate areas and contain spills. Our berms allow you to construct border curbs without resorting to expensive concrete barriers, culverts, and construction costs. The solid bottom adheres to most surfaces and is ideal for applications where you need to hold, divert, or redirect liquids.

Federal Spill Prevention, Control, and Countermeasure (SPCC) regulations include requirements for spill prevention, preparedness, and response to prevent the pollution of navigable waters and adjoining shorelines. The rules require specific facilities to prepare, amend, and implement SPCC Plans (EPA) to ensure their containment area has enough capacity to contain at least 10% of the total volume of the primary containers, or 100% of the volume of the largest container, whichever is greater.

RubberForm's extruded rubber berms stand up to oils, solvents, fuels, other hazardous liquids, and water for all SPCC requirements and can be custom fabricated to any specification, shape, or configuration.

**Please consult with your environmental engineer to ensure compliancy.*

Key Features

- Can be custom fabricated for specification, shape or configuration
- Will not crack, break, spall, rip, or disintegrate
- Quick and easy to install, ability to uninstall
- Flexible – conforms to any surface
- Indoor or outdoor use
- Pyramid shape for optimal protection
- Liquid-tight seals
- Made in the USA with 100% post-industrial EPDM rubber

Made in the USA

100% Recycled Material

SPILL CONTAINMENT BERM SPECIFICATIONS

Models

RF-SCB22FR

2 Inch Spill Containment Border

- 2"H x 2"W x 120"L
- 4 lbs per foot

RF-SCB44FR

4 Inch Spill Containment Border

- 4"H x 4"W x 120"L
- 7 lbs per foot

RF-SCB66FR

6 Inch Spill Containment Border

- 6"H x 6"W x 120"L
- 15 lbs per foot

Specifications

- Extruded in 10' lengths
- Solid / Black
- Attaches to floor with rubber adhesive sealant caulk & lag bolts

Hardware Kit

RF-SCBLS22

- 3-1/2"L x 5/16"W Lag Bolt
- 1-3/4"L x 5/16"W Anchor
- 5/16" Washer

RF-SCBLS44

- 6"L x 3/8"W Lag Bolt
- 1-1/8"L x 9/16"W Anchor
- 1/2" Washer

RF-SCBLS66

- 10"L x 1/2"W Lag Bolt
- 1-3/8"L x 9/16"W Anchor
- 1/2" Washer

RF-CLM-1.10.1BLK

- Chem-Link M1 Structural Adhesive – 10.1 oz cartridge, black, no VOCs
