

## SPEED TABLE

Our RubberForm Speed Tables are effective permanent or temporary traffic calming devices. Gentler than either speed bumps or speed humps, our speed tables calm traffic without loud disruption or risk of vehicle damage. They are fully modular and can span any width of road needed. Speed tables are wide enough to allow pedestrians to use them as crosswalks. This keeps them safe by increasing their visibility to oncoming traffic.

Our 100% American recycled composite material won't crack, crumble, spall, or corrode in the searing heat, frigid cold, or any rain, ice, or snow common to North American roads.

### KEY FEATURES:

#### MADE IN THE USA

With 100% American recycled composite material

#### DURABLE

Won't chip, crack, crumble, or corrode

#### EASY

To install, remove, and relocate

#### MODULAR DESIGN

For custom widths or lengths

#### SAFE

Pedestrians can use as elevated crosswalk

Made in the USA

100% Recycled Materials

Unrivaled Quality

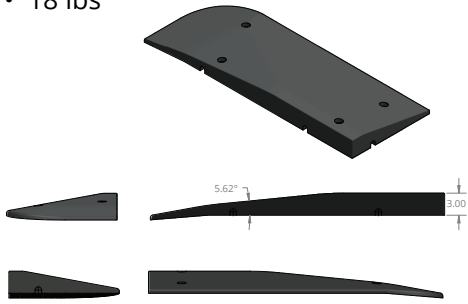

UV Resistant
