

## MLSB DIRT ROAD SPEED BUMP

Our RubberForm MLSB Dirt Road Speed Bumps are effective permanent or temporary traffic calming devices on dirt or gravel road surfaces. They are carefully innovated to stay in place: no spikes, no lag bolts, no adhesives needed for temporary use. For permanent installation, use our earth anchor.

They're easy to install, easy to relocate, and highly visible day or night. Our MLSB speed bump line is made with 100% American recycled masticated rubber that won't crack, crumble, or corrode, no matter the heat, cold, rain, ice, or snow you throw at it.

### KEY FEATURES:

**MADE IN THE USA**

With 100% fiber-reinforced masticated recycled tire rubber

**VERSATILE**

Install on dirt or gravel with our earth anchor

**DURABLE**

Won't warp, chip, crack, spall, or corrode in any weather

**EASY**

To deploy, install, and recover

**CONVENIENT**

Reduce dust spread and soil erosion by slowing vehicles down on dirt and gravel roads

Made in the USA

100% Recycled Materials

Unrivaled Quality

UV Resistant

# MLSB DIRT ROAD SPEED BUMP SPECIFICATIONS
