

6" SPILL CONTAINMENT BERM

RubberForm's patented 6" Spill Containment Berm mechanically isolates areas and contains spills without resorting to immovable concrete barriers, angle iron or culverts, and expensive construction costs. It keeps you, your workers, and your neighbors safe, and your site compliant.

2", 4", 8" and Drive-Over Spill Containment Berms are also available!

OUR 100% AMERICAN MADE SPILL BERM IS A COMPLETE TURNKEY SOLUTION:

1. **YOU MEASURE**
2. **WE DESIGN & FABRICATE**
3. **YOU INSTALL**

You won't need sophisticated tools either: a tape measure, impact driver, caulk gun, and a few other common tools.

See our installation guide for more details.

Made in the USA

100% Recycled
Materials

Unrivaled
Quality

UV Resistant

6" SPILL CONTAINMENT BERM

KEY FEATURES:

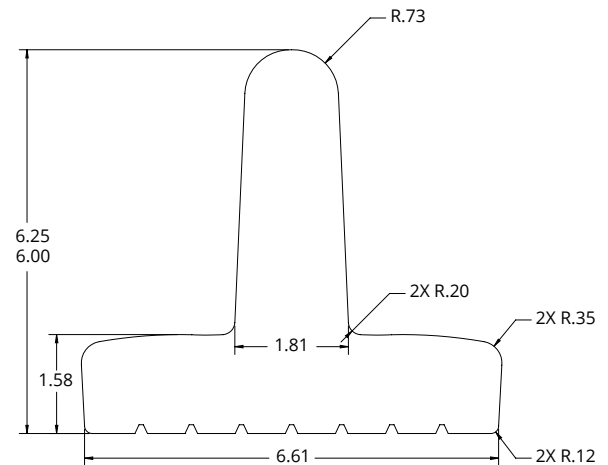

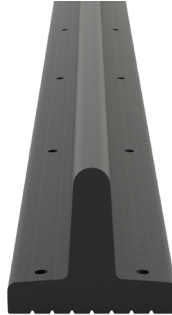

- Customized for any length, shape, or configuration
- Conforms to any hard surface (i.e. concrete, asphalt)
- Won't chip, crack, crumble, or corrode
- Easy to install, remove, and relocate
- Liquid-tight seals via lag bolts and adhesive
- Indoor or outdoor use
- T-shaped for optimal protection
- Made in the USA with 100% post-industrial TPV (Thermoplastic Vulcanizate Composite material)
