RECYCLED PRODUCTS, LLC

Pipe and Hose Ramp

The RubberForm Pipe and Hose Ramp helps save money, time and the environment. Instead of temporarily laying down asphalt or gravel to access driveways or to get over curbs during construction/municipal/waterline projects. RubberForm's ramps can be easily placed, relocated and removed as needed. No more wasted cross-over ramp material cost, messy cleanup or lost time. Use on one project and they are paid for. 50% less than our competitors' metal hose ramps and molded plastic pipe ramps.

The RubberForm Pipe and Hose Ramp protects in-traffic hose, cable, pipe and electric conduit lines from load-bearing traffic. Made from post-industrial extruded EPDM rubber, our ramps are a durable, long-lasting solution. Perfect for temporary or permanent projects. Create access ramps for driveways and entrances during road, curbside or waterline pipe construction. Ideal for construction/paving contractors, municipalities or on-site business use.

Features:

- 100% Post industrial EPDM Rubber
- Costs 50% less than our metal hose ramp competitor
- Flexible: conforms to any asphalt or concrete surface - inside or outside
- Available in multiple ramp heights
- Easy to transport, easy to install with built-in hand grips
- High load-bearing capacity
- Reusable, built-to-last pipe and hose ramps pay for themselves with just one use over temporary asphalt
- Patented
- Made in the U.S.A.

Pipe and Hose Ramp Specifications

RF-PR1F

RF-PR2R

RF-PR4R

Specifications:

- EPDM rubber

Models:

RF-PR1F-10

- 1.5" Pipe Ramp
- 30lbs
- 2"H x 8"W x 120"L
- Holds pipe or hose diameter up to 1.5" OD

RF-PR2R

- 3"H x 12"W x 36"L
- 32lbs
- Holds pipe or hose diameter up to 2-3/8" OD

RF-PR4S

- 4"H x 28"W x 36"L
- 75lbs - For all 3 pieces interlocked
- 3-piece set - 2 ramps and an inter-connector for full set
- Holds pipe or hose diameter up to 4.5" OD
