

# RUBBER LOAD TEST WEIGHTS

RubberForm Rubber Load Test Weights are the ideal solution for conducting weight tests on conveyors, mechanical handling systems, shelving, powered lifts, or any other load-bearing analysis.

Made from recycled rubber, our test weights are the eco-friendly and more durable alternative to sandbags, water jugs, and other common load-testing objects.

RubberForm's Rubber Test Weights are used by a variety of leaders within the industrial and manufacturing industry for their sustainability and strength.

## Key Features

- Colorized to not mark surfaces
- Flexible and resilient - will not damage your product or conveying system
- Saves from disposing used sandbags and plastic water jugs
- Made in the USA with 100% American recycled rubber
